

SERIES 3

FEATURING:

HOURS

MINUTES

SECONDS

RETROGRADE DATE

“The original Series 1 featured a retrograde date complication and as a result of this and a further two unique pieces that are developments of my original 2001 design, I decided to devise a new Series 3 watch around my development of this fascinating complication.”

The resulting Series 3 is a 40mm cased, manually wound wristwatch displaying hours, minutes, seconds and a retrograde date complication.

ROGER W SMITH

MOVEMENT

- Roger W Smith's latest single wheel version of the Daniels co-axial escapement
- Free sprung Quadrajust balance
- 18,000 vibrations per hour
- Raised barrel bridge and balance cock, engraved with a choice of English floral designs
- English finished with frosted and gilded plates
- Gold chatons and flame coloured screws to a purple/blue hue
- Numbered and signed, R.W. Smith - Isle of Man

DIAL & HANDS

- A choice of materials can be used to create a unique engraved or engine turned dial and a complementary set of the unique Roger W Smith's sculpted hands
